MODEL 36

Compu-Cut® Automatic Measure, Cut and Single-End Strip

Outstanding Performance, Quality and Repeatability. The NEW Model 36 Compu-Cut® is a fully programmable bench top Measure & Cut Machine, utilizing High Torque Stepper Motors, Feed Belt Material Transport and a Precision Ball Screw Blade Mechanism. With full microprocessor control, the Model 36 is a very capable machine. Not only does this unit accurately Measure and Cut a wide range of material, it also has the capacity to do Single End Wire Stripping, along with the ability to process Fully Stripped Jumper Wires. The Model 36 Transports, Cuts and/or Strips the material being processed on Center, resulting in clean and accurate results. Available with standard Carbide V-Blades, the Model 36 can easily process Wire up to 4 AWG, Multi-Conductor Cable and Tubing up to .625" OD, and Flat Cable up to .625" in width. The Model 36 comes standard with 10 Wire Guide Bushings, 1 Year Limited Warranty, and a host of convenient Software Features. Optional items: Single Plane Wire Straightener and Wire Marking Interface.
