LABEL MAXX

HIGHTECH LABEL DISPENSING SYSTEMS

Forget everything you know about label dispensers - this one is completely different. Ever had a roll of labels that did not fit onto the core? LABEL MAXX has an adjustable core and takes sizes from 1" (25,4 mm) to 4" (101,6 mm).

Forget fumbling around while trying to fix the end of the label roll for operation. Enjoy LABEL MAXX's EASY LOAD feature - change from one roll to the other in seconds.

LABEL MAXX 'C' handles a wide range of label sizes, from 7/8" (22 mm) to 6" (152 mm) wide, including rectangular, round and even transpa-

rent types. No complicated set up: simply plug in, load the labels and you are ready to go.

For applications with medium to small quantities, LABEL MAXX 'CE' might be the answer. The same EASY LOAD feature, combined with a label tray and a front disposal of the backing paper.

Load label roll ...

Push satellite roller down ...

Ready to go - that's EASY LOAD!

The economy version: LABEL MAXX 'C'

DETAILS

	LABEL MAXX 'C'	LABEL MAXX 'CC'	LABEL MAXX 'CE'
Media	label roll	label roll	label roll
Capacity	OD max 8" (203 mm)	OD max 8" (203 mm)	OD max 6" (152 mm)
